

TASTING NOTES

Poe Ridge IPA

Our IPA is an aggressively hopped west coast style balanced by a strong malt backbone. It is hop forward without being overly bitter. Fresh hop notes of citrus, light pine, and a hint of spice combine with a light malt sweetness and a slightly dry finish.

Hopsicle IPA

The Hopsicle is a hop forward balanced by a refreshing finish and rich malty body. Hop notes of citrus, pine, and tropical fruits all working together to show our love for American hop varieties in all their glory, we also have some nice supporting hop notes of spice and dark fruits that help round out this beer.

Trail Ale/ Overlord Pale Ale

Our first recipe brewed over 7 years ago this is the beer that started it all for us. A big rich beer balanced by a heavy handed dose of late edition hops that add vibrant citrus and pine notes to the rich malt body. This is a big beer that is very easy to drink and should please malt and hop lovers alike.

Trout Stout

Our stout is brewed in the Irish tradition with 5 different grains to add a smooth and malty playground for the dark roasted malts and add their coffee and dark chocolate flavors. But don't let the color fool you, this beer is big on malty flavor but it is very drinkable with its combination of bitter sweet chocolate, roasted coffee, and a touch of caramel sweetness.

Broken Knee Session

Our session is a hop bursted English inspired pale ale. The combination of old world and new world ingredients make for a hop forward refreshing pale ale that makes you want to come back for more.

Sweet Ginger Brown Ale

The Sweet Ginger Brown is a big malt forward brown ale. This full-bodied ale may be big, but it finishes with a malty sweetness almost like you're sipping on molasses. The Sweet Ginger Brown's nutty flavor grabs you and pulls you in followed by a journey through the 7 different grains that we use. The sweet finish gives this beer its namesake as the Sweet Ginger Brown.
